BIZKARTS
PRECISION. INNOVATION

THE EVO3 CADET.

The Evo3 Cadet has been designed for the youngest age group: children aged between 8 and 12 years old depending on their height*. Its light steering, durability and super silent exhaust system make it ideal for younger karters and beginners. Plus, it features a wet clutch engine and belt drive so maintenance is substantially reduced compared to the Evo2 Cadet.

STANDARD SPECIFICATION.

Chassis, Engine and Drive:

- Black high strength twin tube chassis.
- Governed Honda GX160RH wet clutch engine.
- Side-mounted fuel tank.
