KARTING LIKE YOU'VE NEVER SEEN IT BEFORE...

Super E blends karting with gaming, where drivers collect power-ups, manage energy, and race strategically. With on-kart screens and dynamic track elements, no two races are the same!

Built for track owners, Super E keeps racers coming back. Are you ready to level up your circuit?

Super E is built for indoor karting circuits, combining the thrill of close racing with a retro gaming twist. Drivers collect rewards by passing through power-up zones, which appear on their steering wheel display.

With the press of a button, they can boost their speed or sabotage rivals—but timing is everything! To stay fast, drivers must also navigate virtual recharge zones to keep their energy levels high.

Every lap is a strategic battle for victory!

HOW DOES IT WORK?

Super E isn't just about speed—it's about strategy! Drivers must collect bonuses, manage their energy, and time their moves perfectly to stay ahead. Every lap is a chance to outplay the competition!

RACE

It's more than just speed—smart use of power-ups and energy management can change the game!

BONUSES

Drive under chevrons to collect bonuses that boost, attack, or defend.

ENERGY

Get hit by a bonus, and you'll lose energy—drive through recharge zones to power back up!

CHOOSE YOUR BONUS

Speed ahead, defend yourself, or disrupt your rivals! Super E bonuses give drivers the power to change the race in an instant. Pick the right moment to deploy your reward and take control of the track!

FIREBALL

Launch a fireball to slow down a kart ahead or behind you!

BLACK HOLE

Lay a black hole to slow down any players that fall in!

BOOST

Zoom past other players with the super-charged battery boost!

SONIC BOOM

Unleashes a shockwave that slows down all karts ahead of you.

COLD FUSION

Freezes your kart and nearby karts for a short time.

FORCE FIELD

Temporarily protects your kart from all attacks.

WHAT'S INCLUDED: KARTS

The EcoVolt GT

-  Rider Height _____ 1.5m+
-  Rider Age _____ Adult
-  Run Time _____ Up to 3 hours
-  Charge Time _____ 4 hours
